AVIATORS MODEL CODE OF CONDUCT and Supporting Materials

© 2003-2012 Michael S. Baum. All Rights Reserved.

Permission is hereby granted to you, the Licensee, to reproduce the AVIATORS MODEL CODE OF CONDUCT (AMCC), including any of the supporting materials available on the secureav.com website (collectively “this publication”) in any media, subject to the following restrictions:

1. Any reproduction or publication for profit is prohibited.
2. Any reproduction of the AMCC and Passenger Briefing shall include the “*NOTICE*” and “*EDITS, ERRATA, COMMENTS*” text that are currently contained therein.
3. A timely message is communicated to the author (to the below email address) identifying (at least) the name of the organization on whose behalf the publication is reproduced and any suggested edits, errata, or comments that may improve the publication. Upon request of the submitter, the author agrees to keep such message confidential.
4. The Licensee acknowledges and agrees:
 - a. that this publication is not provided as legal advice and must not be relied upon as such;
 - b. that this publication is provided “AS IS” AND WITHOUT WARRANTIES, EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION, THOSE OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE AND NONINFRINGEMENT;
 - c. to defend, indemnify and hold harmless Secureav, the author, and his employees and agents (Indemnitees) against all claims, expenses, liabilities, losses, costs and damages, including reasonable attorney’s fees, that the Indemnitees may incur in connection with the Licensee’s reproduction and use of the publication;
 - d. that no other rights to copy or reproduce or create derivative works are given by this license except as provided herein; and
 - e. that this publication is not a “standard” and is not intended to be implemented as such.
5. Adoptees and users of the translations shall independently validate translation accuracy and appropriateness as a precondition to publication and use.
6. Requests for permission to reproduce these materials under terms that vary from the above should be addressed to:
